

Zones of Relevance

1. Discuss the words with your partner then sort them onto the diagram. Use a dictionary if you're unsure of any of the definitions.
2. If a word is completely irrelevant and does not remotely describe being inside the whale's mouth **AT ALL** put it outside the chart.
3. If it IS relevant, decide *how* relevant - the more relevant the word is it is the closer it must be to the centre. When you've finished, add your own words to the chart.
